

LOUGHRAN

Deluxe Distilling Malt

PRODUCT DESCRIPTION

Deluxe Distilling Malt is a high-performance malt crafted specifically for the distilling industry, ideal for producing exceptional grain whisky. Made from select two-row spring barley, it undergoes a precise steeping, germination, and kilning process to deliver high fermentability, robust enzyme activity, and optimal soluble nitrogen levels—ensuring a consistent, high-quality distillation every time.

Loughran Malts & Adjuncts are specially selected by the Loughran team. Drawing on seven generations of family barley growing wisdom from our origins on our farm in Dundalk, Ireland, and our experience and expertise in UK malting and brewing from Brewers Select in Peterborough, we choose only the best farmers to work with. These lasting partnerships form the backbone of everything we do, and allow us to deliver brewers and distillers the finest malts and adjuncts, in the process connecting them to the heart of their ingredients in the journey from farm to glass.

USE FOR	USAGE RATE	CHEMICAL STANDARDS
Single malt pot still spirit whisky	Up to 100%	The product complies with all current EC regulations governing pesticide residues and other chemicals or additives.
	FLAVOURS	
	Creates a clean, crisp & fresh spirit
